

## § 303.9

## 16 CFR Ch. I (1–1–05 Edition)

(c) After taking the necessary procedure in consideration of the application, the Commission in due course shall establish a generic name or advise the applicant of its refusal to grant the application and designate the proper existing generic name for the fiber.

[24 FR 4480, June 2, 1959, as amended at 63 FR 7518, Feb. 13, 1998]

### § 303.9 Use of fur-bearing animal names and symbols prohibited.

(a) The advertising or the labeling of a textile fiber product shall not contain any names, words, depictions, descriptive matter, or other symbols which connote or signify a fur-bearing animal, unless such product or the part thereof in connection with which the names, words, depictions, descriptive matter, or other symbols are used is a fur product within the meaning of the Fur Products Labeling Act.

(b) Subject to the provisions of paragraph (a) of this section and § 303.6 of this part, a textile fiber product shall not be described or referred to in any manner in an advertisement or label with:

(1) The name or part of the name of a fur-bearing animal, whether as a single word or a combination word, or any coined word which is phonetically similar to a fur-bearing animal name, or which is only a slight variation in spelling of a fur-bearing animal name or part of the name. As for example, such terms as “Ermine,” “Mink,” “Persian,” “Broadtail,” “Beaverton,” “Marmink,” “Sablelon,” “Lam,” “Pershian,” “Minx,” or similar terms shall not be used.

(2) Any word or name symbolic of a fur-bearing animal by reason of conventional usage or by reason of its close relationship with fur-bearing animals. As for example, such terms as “guardhair,” “underfur,” and “mutation,” or similar terms, shall not be used.

(c) Nothing contained herein shall prevent:

(1) The nondeceptive use of animal names or symbols in referring to a textile fiber product where the fur of such animal is not commonly or commercially used in fur products, as that term is defined in the Fur Products La-

beling Act, as for example “kitten soft,” “Bear Brand”, etc.

(2) The nondeceptive use of a trademark or trade name containing the name, symbol, or depiction of a fur-bearing animal unless:

(i) The textile fiber product in connection with which such trademark or trade name is used simulates a fur or fur product; or

(ii) Such trademark or trade name is used in any advertisement of a textile fiber product together with any depiction which has the appearance of a fur or fur product; or

(iii) The use of such trademark or trade name is prohibited by the Fur Products Labeling Act.

### § 303.10 Fiber content of special types of products.

(a) Where a textile product is made wholly of elastic yarn or material, with minor parts of non-elastic material for structural purposes, it shall be identified as to the percentage of the elastomer, together with the percentage of all textile coverings of the elastomer and all other yarns or materials used therein.

Where a textile fiber product is made in part of elastic material and in part of other fabric, the fiber content of such fabric shall be set forth sectionally by percentages as in the case of other fabrics. In such cases the elastic material may be disclosed by describing the material as elastic followed by a listing in order of predominance by weight of the fibers used in such elastic, including the elastomer, where such fibers are present by 5 per centum or more with the designation “other fiber” or “other fibers” appearing last when fibers required to be so designated are present. An example of labeling under this paragraph is:

Front and back non-elastic sections:

50 percent Acetate.

50 percent Cotton.

Elastic: Rayon, cotton, nylon, rubber.

(b) Where drapery or upholstery fabrics are manufactured on hand-operated looms for a particular customer after the sale of such fabric has been consummated, and the amount of the

order does not exceed 100 yards (91.44 m) of fabric, the required fiber content disclosure may be made by listing the fibers present in order of predominance by weight with any fiber or fibers required to be designated as "other fiber" or "other fibers" appearing last, as for example:

Rayon  
Wool  
Acetate  
Metallic  
Other fibers

(c)(1) Where a manufactured textile fiber is essentially a physical combination or mixture of two or more chemically distinct constituents or components combined at or prior to the time of extrusion, which components if separately extruded would each fall within different existing definitions of textile fibers as set forth in §303.7 of this part (Rule 7), the fiber content disclosure as to such fiber, shall for all purposes under the regulations in this part (i) disclose such fact in the required fiber content information by appropriate nondeceptive descriptive terminology, such as "biconstituent fiber" or "multiconstituent fiber," (ii) set out the components contained in the fiber by the appropriate generic name specified in §303.7 of this part (Rule 7) in the order of their predominance by weight, and (iii) set out the respective percentages of such components by weight.

(2) If the components of such fibers are of a matrix-fibril configuration, the term *matrix-fibril fiber* or *matrix fiber* may be used in setting forth the information required by this paragraph.

(3) Examples of proper fiber content designations under this paragraph are:

100% Biconstituent Fiber  
(65% Nylon, 35% Polyester)  
80% Matrix Fiber (60% Nylon, 40% Polyester)  
15% Polyester  
5% Rayon

(4) All of the provisions as to fiber content disclosures contained in the Act and regulations, including the provisions relative to fiber content tolerances and disclosures of fibers present in amounts of less than 5 percentum of the total fiber weight, shall also be ap-

plicable to the designations and disclosures prescribed by this paragraph.

### §303.11 Floor coverings containing backings, fillings, and paddings.

In disclosing the required fiber content information as to floor coverings containing exempted backings, fillings, or paddings, the disclosure shall be made in such manner as to indicate that it relates only to the face, pile, or outer surface of the floor covering and not to the backing, filling, or padding. Examples of the form of marking these types of floor coverings as to fiber content are as follows:

100% Cotton Pile  
Face—60% Rayon, 40% Cotton  
Outer Surface—100% Wool

### §303.12 Trimmings of household textile articles.

(a) Trimmings incorporated in articles of wearing apparel and other household textile articles may, among other forms of trim, include: (1) Rickrack, tape, belting, binding, braid, labels (either required or non-required), collars, cuffs, wrist bands, leg bands, waist bands, gussets, gores, welts, and findings, including superimposed garters in hosiery, and elastic materials and threads inserted in or added to the basic product or garment in minor proportion for holding, reinforcing or similar structural purposes; (2) decorative trim, whether applied by embroidery, overlay, applique, or attachment; and (3) decorative patterns or designs which are an integral part of the fabric out of which the household textile article is made: *Provided*, That such decorative trim or decorative pattern or design, as specified in paragraphs (a) (2) and (3) of this section, does not exceed 15 percent of the surface area of the household textile article. If no representation is made as to the fiber content of the decorative trim or decoration, as provided for in paragraphs (a) (2) and (3) of this section, the fiber content designation of the basic fabric shall be followed by the statement "exclusive of decoration."
